Personal Support Worker (| Niagara Falls, ON (Willing to Relocate)

📞 (437) 452-0564 | ✉️ winslausj@gmail.com

PROFESSIONAL SUMMARY

Compassionate and experienced Nurse with over 5 years of clinical and long-term care experience, now pursuing Personal Support Worker (PSW) roles in Canada. Proven ability to deliver high-quality patient and resident care, assist with daily living activities, support mobility, and uphold infection control standards. Committed to providing person-centered care, preserving dignity, and supporting physical and emotional well-being across hospital and residential settings.

EXPERIENCE

Nurse (Support Role – Long-Term Care)

William Taylor Home – Newfoundland, Canada

2024 – 2025

- Delivered compassionate care to elderly residents including bathing, toileting, grooming, and feeding.
- Assisted residents with mobility using mechanical lifts and transfer techniques.
- Monitored residents' conditions and reported concerns to supervising nurses.
- Ensured cleanliness and infection control in resident rooms and common areas.

Nurse (Medical-Surgical Ward)

Kitale County Hospital – Kitale, Kenya

2022 – 2023

- Provided nursing care for inpatients, including medication administration, wound care, and health monitoring.
- Assisted with patient hygiene, mobility, and recovery under medical supervision.
- Educated patients and families on post-discharge care and medication adherence.
- Documented nursing assessments, treatments, and patient outcomes.

Nurse (General Ward)

Aga Khan Hospital – Nairobi, Kenya

2021 – 2022

- Supported daily nursing care routines such as feeding, toileting, grooming, and repositioning patients.
- Maintained a clean and therapeutic environment for patients of various age groups.
- Provided emotional support and health education to patients and their families.
- Ensured all care met hospital protocols for safety and dignity.

Nurse (Community & Outpatient Care)

SR FREDAS Clinic & Outreach Program – Eldoret, Kenya

2020 – 2021

- Delivered health services to elderly and chronically ill clients in outpatient and home-care settings.
- Assisted with vital signs monitoring, medication reminders, and home hygiene education.
- Provided psychosocial support and encouraged community wellness initiatives.
